Letterhead Certificate for Boneless Poultry Meat Cuts for Processing

Date Issued _____ Certificate Number _____

1. The product originates from the country indicated in this document.
2. The product comes from healthy animals inspected ante and post mortem in establishments under official control.
3. The product comes from flocks that have a monitoring program of 70 birds that began after 12 days of age, using viral isolation tests and identification of velogenic strains through a test that indicates intracerebral pathogenicity in chicks of one day of age and that is carried out for each lot that is delivered for slaughter, obtaining negative results for Velogenic Newcastle disease, or that their destination is an establishment authorized by SAGARPA to carry out thermal treatment processes, or that comes from a country free of Velogenic Newcastle disease.
4. The product has been approved by the USDA for human consumption.
5. The product comes from lots from which 59 serological random samples have been taken and tested for avian influenza within a period of 0-21 days before slaughter using the "agar gel precipitin" test with negative results for avian influenza or that their destination is an establishment authorized by SAGARPA to carry out thermal treatment processes. The blood samples were taken on _____.
6. The meat does not come from birds originating or from the following Texas counties: Gonzales, Guadalupe, Galdwell, Bastrop, Fayette, La Vaca, De Witt, Karnes, Wilson, Comal and Hays, under quarantine for high pathogen avian influenza.
7. The product is freely transported and marketed within the United States.
8. The product comes from a plant approved by SAGARPA.
9. The vehicles and containers that transport the product were sealed at the plant of origin and remained sealed until entering Mexico.
